Letter of Recommendation

I am writing this letter upon the request of Sanderson Group for their involvement in the Kingdom of Dreams Project. Sanderson Group was commissioned for the Concept Design, Design Development, Project Management and Thematic Construction of "Kingdom of Dreams"

Despite the challenging circumstances, they have executed a fairly reasonable job & working with them has been an excellent experience.

Their total commitment towards the project and problem solving abilities, gave us a Design to Construct solution, in conjunctions with other vendors and contractors & they have been professional with their approach to ensure we were kept abreast with the project developments and at all times.

I would like to congratulate them for their efforts & recommend them to any of their potential future clients.

Asad Islam

Senior Vice President (Group)
