

June 2009

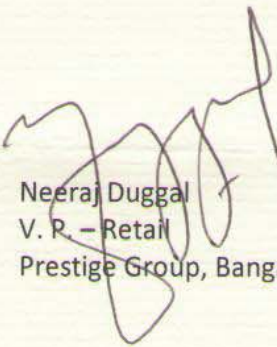

TO WHOM IT MAY CONCERN

We chose Sanderson over many possible contenders for the prestigious project – The Collection at UB City, based on their credentials and experience in themed projects. I would like to place on record that Dilip and his team took on the assignment with sincerity and commitment, which was the reason the project, was completed on time.

The involvement of the Sanderson team went beyond their scope of contract and the team rallied to deliver the project of exceptional standard.

The resources required for the project was new to the City as well as the Country and Sanderson's vast experience and multi locations presence helped in sourcing out expertise for the same. I would recommend Sanderson Group to anyone for their special expertise in creating themed projects.

Wishing Sanderson Group all the best for their future endeavors.
